Problems and history

- Recurrent otitis externa, left ear (2023, 2025). Cytology 08/2025: yeast. Otic ointment; resolved.
- Seasonal allergic dermatitis (spring). Managed with oclacitinib during flares.
- Dental: grade 1 tartar at last exam (04/2025). Cleaning recommended within 12 months.

Medications

- Oclacitinib 16 mg: 1/2 tablet twice daily for 14 days, then once daily during flares. Last filled 05/2025.

Heartworm and parasites

Heartworm test negative 04/02/2025. Monthly heartworm and flea/tick prevention recommended; owner reports gaps in summer.

Behavior

CAUTION: nervous for ear exams; has snapped once (2025). Muzzle advised for ear cleaning. Food motivated; responds well to treats.

Weights

24.1 lb (04/2024), 25.6 lb (04/2025).

Signed: Dr. Fictional Example, DVM (not a real person)
